Professional Summary

LLM/Agentic AI Engineer (SDE) with 2+ years building production LLM features, RAG-ready backends, and real-time SSE experiences. Skilled in LangGraph, LangChain, pgvector, Mem0, and prompt engineering; ships FastAPI/Node microservices on PostgreSQL/MongoDB with low-latency streaming, token optimization, and guardrailed pipelines on AWS/Firebase/Supabase.

Experience

Tap Academy **March 2025 – Present**
Software Development Engineer 1 (SD1) *Bangalore, Karnataka*

- Built production LLM-powered AI code assistance using OpenAI APIs with optimized prompt engineering, token management, and SSE streaming for real-time code suggestions.
- Architected full-stack learning platform with React + FastAPI/Node.js, integrating AI-driven feedback loops for student code submissions.
- Optimized PostgreSQL and MongoDB through indexing and query restructuring, reducing average API response time by 35%.

Quanta **July 2024 – Feb 2025**
Software Development Engineer 1 (SD1) *Bangalore, Karnataka*

- Built scalable async FastAPI and Flask microservices for real-time synchronization and low-latency concurrent collaboration.
- Designed production-grade MySQL schemas and integrated third-party APIs; developed modular reusable backend services to accelerate delivery.

Visionet Systems **Feb 2024 – Jul 2024**
Software Developer Intern *Bangalore, Karnataka*

- Built reusable AWS cloud component and modular Python data-processing solutions with optimized SQL queries, improving pipeline scalability and data integrity.

Skills

- **AI/ML** LangGraph, LangChain, LLM Integration, RAG, Vector Databases (pgvector), Agentic Workflows, Prompt Engineering, Mem0, SSE Streaming, Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, Agentic AI, Large Language Models (LLMs), Natural Language Processing (NLP), AI Agents
- **Languages** Python, JavaScript, TypeScript
- **Backend** FastAPI, Node.js, Flask, Express.js, Prisma, Microservices, Modular Architecture, Docker, REST APIs
- **Databases** PostgreSQL, MongoDB, MySQL, pgvector
- **Frontend** React, React Native, Expo, Redux, Zustand, Tailwind CSS, React Router
- **Cloud** AWS, Firebase, Supabase, Cloud Computing
- **Other** WebSockets, SQL Optimization, CI/CD, Git

Projects

AI Fitness Coach | *LangGraph, FastAPI, React Native, pgvector, OpenRouter* **2025**

- Designed an agentic workflow with LangGraph and 8 tools; built retrieval over pgvector + Mem0 for personalized context.
- Implemented real-time SSE streaming and parallelized context loading, reducing first-token latency by 40%.

AI Resume Builder | *Python, FastAPI, Pydantic, OpenAI, LaTeX, React/Vite/Tailwind, Neon Postgres, Docker* **2026**

- Built full-stack resume-tailoring app with an LLM pipeline for scoring JD fit and a self-correcting LaTeX generate-¿compile-¿verify loop.
- Added model routing with retries/fallbacks and an AI fact-judge guardrail; implemented JWT auth and per-request cost/latency/token analytics; deployed via Docker on Render + Vercel.

AI Code Editor | *LLM, FastAPI, React, Node.js* **Aug 2024**

- Delivered low-latency LLM code suggestions, debugging, and contextual completions with FastAPI backends and streaming UX.
- Optimized prompt-processing and caching to reduce token usage per request by 30%.

Education

PRESIDENCY UNIVERSITY **2020–2024**
B.Tech Computer Science & Engineering (Data Science) – CGPA 7.95 *Bangalore, Karnataka*
